TECHNICAL SKILLS

Python • C++/C# • JavaScript • Java • Swift • Git • MySQL • Unity • HTML&CSS • Microsoft Office Suite

EXPERIENCES

Discord Bot   August 2023 – Present
 • Created custom Discord bot utilizing MyAnimeList API. Includes functionalities e.g. querying info, account linking, etc.
 • Deployed for the NU Anime Club's official Discord server while serving as Club President and Tech Chair.

Undergraduate Research: Artificial Intelligence & Narrative   July 2023 – Present
Northwestern University   *Evanston, IL*
 • Researching emergent narrative under the guidance of Dr. Ian Horswill along with PhD Candidate Sam Hill.
 • Investigating the potential of TED, a logic programming language embedded in C#, to simulate town behavior in a narrative context.
 • Expanding the TED-implemented project "Voix de la Ville" by integrating Story Sifting for improved narrative.

Bilibili Video Channel   July 2018 – March 2022
 • Created and managed content including editing, translating & subtitling, and general viewer engagement.
 • Achieved 5,000,000+ views, 130,000+ likes, and 10,000+ comments in under 2 years of activity.

ScriptHelper   May 2020 – August 2020
 • Independently developed a Flashcards App using Swift, no longer available due to lack of maintenance.
 • Incorporated ScriptHelper in the High School theater productions I was involved in.

ACTIVITIES

Computer Science Peer Mentor   September 2023 – Present
Northwestern University   *Evanston, IL*
 • Peer Mentor for the Computer Science Department at Northwestern.
 • Courses done: CS 376, CS 377, CS 396.

Peer Tutor   September 2018 – June 2021
Kent School   *Kent, CT*
 Active Peer Tutor in all levels of High School Math, Physics, and Computer Science.
